25X1A

[] Comments.

- (1) Deliveries by Soviet Zone hydrogenation plants to the U.S.S.R. []
- (2) These trains were possibly loaded with ammunition since Soviet ammunition depots are located in the places mentioned and the shipment record numbers reported have so far almost exclusively been used for ammunition shipments.
- (3) Kapen is an ammunition depot. This large fuel shipment cannot be explained and contrary to the statement by source, the train may have been loaded with ammunition.
